

CONNECT
Keystone

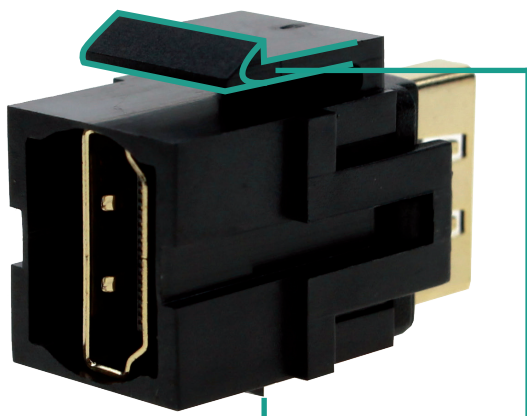

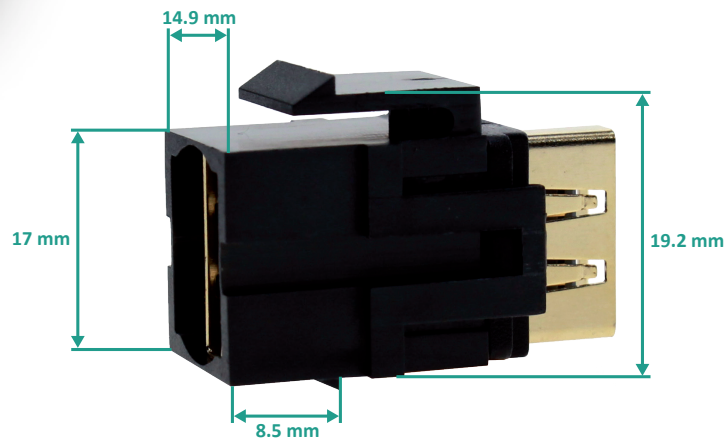

KEYSTONE - A module format for countless applications

Our Keystone modules are available in a variety of versions ranging from networking, audio, video, antenna technology to industrial applications. The modules can be used universally and meanwhile almost all electrical engineering manufacturers have suitable mounting frames available for a multitude of applications.

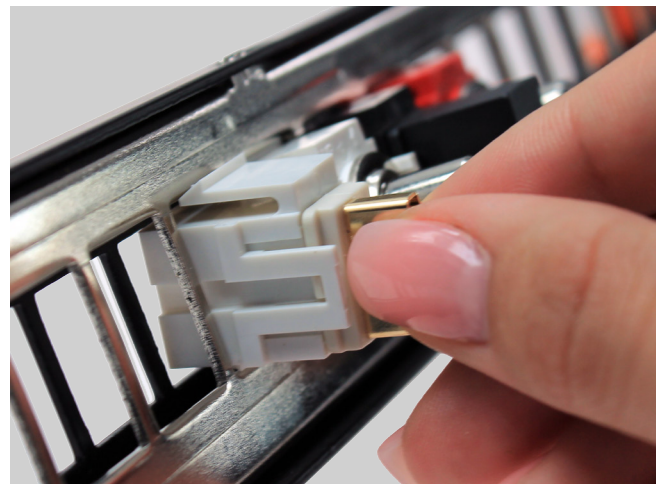

- Easy snap-in installation without special tools
- Many different connection variants available
- Equipment can be changed at any time
- Cost-effective replacement of individual modules possible, overall installation remains intact
- Connection options:
 - 180 °, 90 °, with cable outlet, with connection terminals or insulation displacement connections
- Special variants available on request
- Prefabricated cable connections available on request

Step 1:
Insert locking lug in cut-out and engage at the bottom

Step 2:
Snap the module into place at the top using the snap hook

Installation of Keystone modules in flush / empty wall boxes or duct installation

With the right panels, Keystone modules can be integrated in almost any installation, it may be in the flush-mounted cup or duct installation. With our various module formats, we can install the Keystone adapters in almost every switch program from different manufacturers.

Example with a 55x55 module

Due to the different module formats, the modules can also be integrated in cable ducts, base channels or room columns.

Surface mounting

with matching empty enclosures or surface-mounted frames for switches / sockets programs

With a variety of mounting housings, you can quickly and inexpensively realize your desired installation.

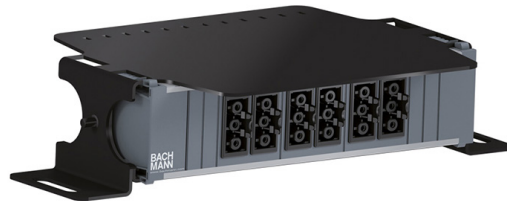

Underground installation with all common manufacturers

For the underfloor installation we offer suitable Keystone installation covers for all common manufacturers (Hager / Tehalit, Obo-Bettermann, PUK, Berg / Vergokan etc.). The modules also fit into the original mounts for Keystone modules. In the underfloor installation, Keystone connections have become standard, especially in network technology.

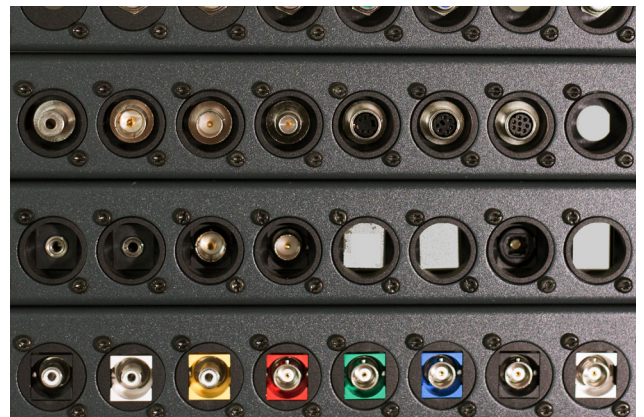

Consolidation Point Solutions Underfloor or on-point housing

Whether underfloor or false ceiling. With Consolidation Point housings, your connections can be realized mechanically protected.

Keystone in D format Easy integration

In the music world, a plug-in system has been established for many years, the D-format with leading manufacturers such as Neutrik, Canon, etc. We also offer corresponding installation adapters for different installation depths. Thus, for example, Network connections cost-effective and easy to integrate into existing panels / connectors.

Mounting in 10" / 19" distribution cabinet

The most widespread are the Keystone modules in the data network technology and there everybody knows in connection with a suitable patch panel. Did you know that this keystone format allows also other connector types than network modules? Suitable products e.g.

PS-10-1HE12P-C6 10" 1U patch panel empty, for up to 12 modules, black

PS-19-1HE24P-C6 19" 1U patch panel empty, for up to 24 modules, black

We supply a wide range of products here - including brand manufacturers such as Metz Connect, Rutenbeck, Telegärtner etc.

Cabinet installation on the DIN rail

The modules are also increasingly used in the control cabinet installation. For this we offer a selection of installation carriers. Whether for the distribution of your home network or the integration of a telephone system, with the appropriate module carriers and modules, the installation is done quickly and inexpensively. We offer a variety of holders for DIN rail mounting, up to the complete media distribution cabinet.

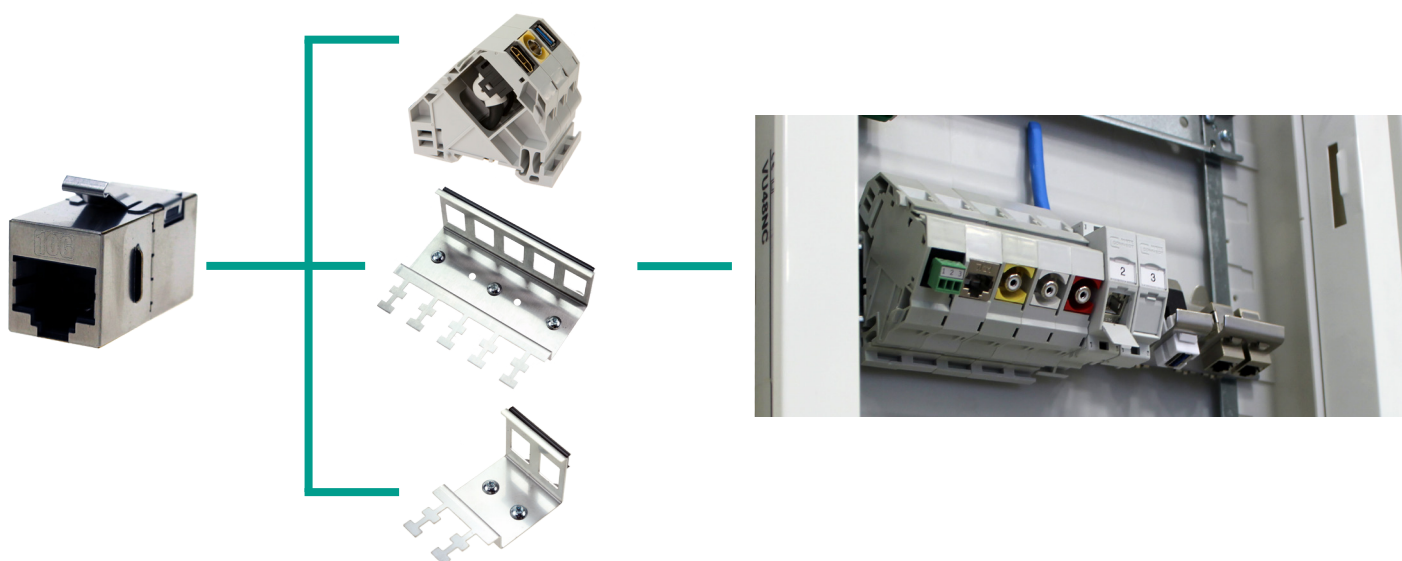

Table installation and removal High compatibility

Almost all manufacturers of table system work with Keystone adaptations to install your connections at the table quickly and future-proof

Industrial use quick and easy

Due to the possibility of exchanging the modules quickly and easily, Keystone adapters are also found in more and more industrial applications, e.g. as a connecting element between the electronics in the housing and the external connection via corresponding cables in the housing construction / control cabinet construction again.

Customizing Tailored to your needs

You would like to use Keystone modules for your application, but you do not have a suitable one yet Installation possibility found? No problem, just contact us. We have already developed and produced appropriate solutions for various industrial applications.

electronic components GmbH

MEDIA TECHNOLOGY

CONTROL

Proprietary developments for simple and affordable media solutions

SIGNAL MANAGEMENT

Signal transmission (HDBaseT), switch, distribute or convert, Rextron provides the right solution

CABLE SOLUTIONS

Connection cables for the professional user, stock goods and special solutions which fit on your needs

CONNECT

Connectors, adapters, keystone adapters, D-Hole, for every application the right connection

INSTALL

perfect installation solutions for floor, table, supply columns and ceiling

CUSTOMIZING

Proprietary development for simple and affordable media solutions
